Github : https://github.com/hariprasad200 Mobile: +91-8309562641

Skills

- **Programming Languages:** C++, Python, Java, SQL
- **Data Libraries (Python):** NumPy, Pandas, Matplotlib, Seaborn
- **Data & Analysis Tools:** MySQL, Power BI, Microsoft Excel
- **Soft Skills:** Problem Solving, Communication, Adaptability, Team Collaboration, Time Management

Projects

Library Management System | *Github* — jul'25 - Aug'25

- Designed and developed a menu-driven library system with persistent file storage
- Implemented modules for book management, user operations, and transaction tracking
- Applied object-oriented design for modular structure and maintainability
- Enhanced reliability through structured error handling and logical flow control
- **Tech Used :** C++, File Handling, OOP

Distribution Sales Analysis | *Github* — mar'25 - Apr'25

- Conducted comprehensive Exploratory Data Analysis using Pandas, NumPy, Matplotlib, and Seaborn
- Performed data cleaning, handling missing values and outlier treatment to improve dataset reliability
- Implemented correlation analysis and customer segmentation to identify purchasing behavior patterns
- Derived data-driven insights highlighting demographic trends influencing product demand
- **Tech Used :** Pandas, NumPy, Matplotlib, Seaborn

HR Employee Attrition Analysis Dashboard | *Github* — mar'25 - Apr'25

- Analyzed HR dataset containing 1,470 employee records and 44 attributes including job role, age, salary, satisfaction level, and attrition status
- Performed data cleaning and preprocessing: handled missing values, corrected labels
- Designed an interactive HR analytics dashboard in Excel to visualize department-wise attrition, age-group trends, job roles, and satisfaction ratings
- Focused analytical objectives included attrition reduction, employee satisfaction improvement, and department-level optimization
- **Tech Used :** Microsoft Excel, Data Cleaning, Dashboarding

Training

Summer Training – C++ Programming | *Link* — Jul'25 - Aug'25

Organization – LPU Skill Development

- Developed strong foundation in C++ syntax and core programming constructs
- Covered OOP principles including classes, objects, inheritance, and file handling
- Applied STL for structured problem-solving and logical development through hands-on exercises

Certificates

- Prompt Engineering: ChatGPT, Generative AI & LLM - Infosys Springboard | *LINK* — Aug'25
- Computer Communications – Coursera | *LINK* — Dec'24
- TCP/IP Advanced Topics – Coursera | *LINK* — Dec'24

Extra Curricular Activities

- Participated in a 24-hour web development hackathon focused on building responsive and functional web solutions - Code Off Duty — Mar' 24

Education

Lovely Professional University — Phagwara, Punjab
Bachelor of Technology - Computer Science and Engineering; ***CGPA: 6.79*** — Since Aug'23

Sri Chaitanya RB-3 — Gannavaram, Vijayawada
Intermediate; ***Percentage: 93.4%*** — Aug'21 – Mar'23

Adithya High School — Proddatur, Kadapa District
Matriculation; ***Percentage: 93.6%*** — Jun'19 - Mar'21
